— Bull Creek April 12 / 59

my Dear Friend

69

your Welcome letter I kind with
Deep Interest, & tho we are separated in person, our
Feelings Sentiments and Sympathy for our Fellow
Man is a unite. So Cheering was your Expressions
that I had your letter published believing as I do that
you would not object to its being circulated all
over our Country. I am happy to see a move to be made
in Boston as well as many other places to aid those
poor suffering creatures to obtain Homes where they
will be Respected & protected, oh that the northern
Free States may be as liberal in the providing for those
as we have been in aiding the whites of Kansas. South
Eastern Kansas is large enough for ever Coloured person
in those Murderous States, then let us help them with
Clothing implements providing means to start the

Live more cheaply than any set of people. There is
in great need of clothing even of old cast of clothing
will be welcomed in fact every thing is needed. I do hope
societies will be formed all over the Free States, that
we will take this matter home to ourselves and do
for them what we have done 3 different periods
for the Whites of Kansas, in Border Ruffian Raids
Drouth & Grasshoppers. Shame if we don't do it,
there is millions of Lands in S & E Kansas where
the Climate is mild & Land rich, soon this people
will want millions of Manufactured goods
be an Element of profit to the north if the Can
only get a start, Schools Colleges Towns Churches and
in fact every thing will be wanted by them. I enclose
Letter from our Senator. Truly yours D D Willis
